

MBL Akustikgeräte GmbH & Co. KG, Berlin

3 January 2011

unique high end audio

Press Release

MBL and USA Distributor GTT part company

The Berlin high-end audio specialist *MBL Akustikgeräte* and their USA distributor *GTT Distribution, Inc.*, headquartered in New Jersey, have decided to terminate their working collaboration effective December 31, 2010. Their decision puts an end to a partnership which first began in February 2010. Neither of the companies gave a reason why they have now decided to go their own separate ways, but both of them emphasized that their parting was by no means acrimonious and that they intend to continue a cooperative and amicable working relationship in future. Until further notice, distribution for the USA, Canada and Mexico will be carried out directly by MBL-Deutschland.

About MBL:

Based in Berlin, ever since it was established in 1979, MBL Akustikgeräte GmbH & Co. KG has been specialised in the development and production of exclusive high-end audio equipment. With an intelligent blend of handcraftsmanship and innovative high-tech, its peerless high grade loudspeakers and sound reproduction equipment are built in the company's own factory and shipped throughout the world. A roll-call of honours and distinctions from the international audio press bears testimony to the acoustic and qualitative mastery of MBL and its products. Prices for complete systems range from € 18,000 to € 400,000.
